Magnet Award

Icons

The idea is simply ingenious: Take 2 acrylic sheets and connect them with a magnet. Different things can now "dip" between the two plates. Photos, medals, pictures or even engravings can "sink" into the acrylic sheets. In addition, with the help of our digital UV printing technology, it is possible for us to "conjure up" color prints in the acrylic and thus personalize it. We have combined 12 mm thick acrylic sheets to form a 24 mm thick award.
